

Hotel Stay Requirements

At Pawty Paws, we aspire to create a safe and fun environment for your pup to have the best vacation while you're having yours, hence we greatly appreciate your cooperation in fulfilling our requirements:

- 1) All guests must be at least 4 months old and in good health
- 2) Proof of current annual core Vaccination Records (valid until day of check-out)

🐾 Our hotel guests are our priority, hence their health and welfare are of utmost importance to us. Vaccination records help us to know that our guests are healthy and well to enjoy their hotel stay at Pawty Paws.

🐾 For guests whose vaccinations have expired, we recommend that you consult your vet on whether additional vaccinations or a Titer Test is needed. Titer testing is an alternative to vaccinations by checking your dog for immunity to parovirus, distemper and adenovirus. For the Titer Test, the results must show positive antibodies for all viruses.

🐾 Optional: Kennel Cough Vaccination is not compulsory but we recommend that you consult your vet for more information.

- 3) Regular tick and flea prevention (eg. Revolution, Bravecto, NexGard, Biospotix, Frontline plus, etc.)

🐾 Our hotel guests are in close contact with each other throughout their day of play, hence this policy ensures that all our guests are well-protected to play in a safe, tick-free and flea-free environment.

4) All first-time guests must pass a mandatory 3-hour trial test (at \$15 per dog). The trial test serves as a temperament evaluation on the guests' usual behavior so that we can get a sense of how the guests will likely behave during the hotel stay. It also helps to reduce stress for the guests during the hotel stay as they will be familiar with the environment at Pawty Paws. More information on the 3-hour trial test are as follows:

🐾1st hour: Interaction with the other daycare or hotel guests (eg. to see how your dog responds towards other dogs and in the absence of its owner)

🐾2nd hour: Interaction with hotel staff (eg. to see how your dog responds to our staff's presence, approach, touch and leashing)

🐾30mins: Guests will be placed in a room (with air-conditioner and water provided) to evaluate their temperament when left alone in the room (ie. prone to barking, scratching, etc.).

🐾Remaining 30mins: Guests will continue exploring the rest of the hotel and play area, play with the other hotel guests and try out the treadmill (subject to owner's permission)

We recommend that the trial test be done as early as possible and at least 24 hours before check-in. The trial test should be booked in advance. Timeslots available for the trial test are 11am – 2pm and 2pm – 5pm on any given day.

Pawty Paws reserve the right to fail the trial test should your dog be aggressive to other dogs or our hotel staff, barks or scratches non-stop when in the room as such behaviors are evident of discomfort and stress and we do not wish to stress your dog during the hotel stay. Upon passing the trial test, Pawty Paws agree to accept your dog for the hotel stay and this acceptance is valid for all future hotel stays, unless there is a drastic change in your dog's temperament and behavior.

You are strongly encouraged to bring your dog for daycare more often (besides the 3-hour trial test) so that your dog will have more time to get used to Pawty Paws and the staff. This will help your dog to acclimatize easily to the environment and have the best time during his/her hotel stay at Pawty Paws.

Our Rates

Standard Suite	<p>🐾\$59 per night</p> <p>🐾\$30 per night for each additional dog in the same room</p>
Additonal Services (eg. daily brushing of teeth, brushing of fur, feeding/applying medications, female dogs in heat, etc.)	<p>🐾\$5 per night</p>
